

Helicopter Benefits

In the event of a serious injury or fatality

As PG&E continues to regularly conduct safety inspections of its electric infrastructure to find and fix potential risks to the safety and reliability of the system, having ready-to-go helicopter crews are now more important than ever. The safety of PG&E’s employees and contractors is always our top priority, but in the event the unthinkable occurs—a serious injury or fatality (SIF)—we want to be sure you understand how you and your loved ones are covered. See below for details.
